AGRI PERRONE

Soluzioni per l'Irrorazione

ATOMIZZATORE TRAINATO - TRAILED SPRAYER

Prm 1000 ATi

INVERTER

VERSATILITY

Compact shape that allows manageability and work ability along espalier and tarpaulin vineyards.
Easy and immediate to hook up any kind of tractor.
Commands easy to control.

LOW COSTS OF MAINTENANCE

Designed and made using high-technologies, tanks to the great Experience in the sector.
Special treatments of the mechanical parts with atmospheric and chemical agents.
High quality materials.
Competitive prices.

TECHNICAL CHARACTERISTICS

Polyethylene tank
Hot ñgalvanized iron frame
Tank for the operator cleaning
External inhalation filter
External water level
Displacement wheel
Width and height adjustable hub
Pressure regulation distributor
Hydraulic rabble-rouser
Galvanized woven-wire with a 800 fan
800mm inverse alluminium fan with clutch expansion
Double speed multiplier + neutral gear
Air pre-distributor on the emission of the water in a homogeneous way
Homologation certified
Double brass filter on the spokes
Double tap for the optional
